Garment Costing & Pricing Guide

Department: Accounts & Finance

Cost Components:

- Fabric Cost: (Fabric Consumption x Fabric Price per unit)
- Trims & Accessories: Buttons, zippers, labels, thread.
- CM (Cut & Make): Labor cost per garment.
- Overheads: Factory rent, utilities, admin.
- Profit Margin: Usually 10-15% for export orders.

Formula:
Total Cost = Fabric + Trims + CM + Overheads
FOB Price = Total Cost + Profit Margin

Example:

- Fabric: BDT 300
- Trims: BDT 50
- CM: BDT 100
- Overheads: BDT 30
- Total: BDT 480
- FOB (10% margin): BDT 528
