Texo Quality Reference: Acceptable Quality Limits (AQL) Department: QA
According to the BKMEA Quality Control Standard for RMG:
Major defects: The AQL for major defects is less than 2.5% of the inspected items.
Minor defects: The AQL for minor defects is less than 4.0% of the inspected items.
Critical defects: Zero tolerance. Stop the lot immediately and notify the QA Manager.
If a lot exceeds these limits, place it on hold for root cause analysis and re-inspection.
